Bhavya Khatri

Full Stack Web Developer

PROFESSIONAL SUMMARY

Experienced and Detail-oriented Full Stack Web Developer Proficient in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in building scalable web Applications and ensuring seamless integration between frontend and backend components. Strong problem-solving abilities and a proactive attitude towards continuous learning and improvement.

PROJECTS

1. JioMart Clone | |

HTML5 | CSS | JavaScript | Node.js | Express

- Developed a JioMart clone, an e-commerce web application that offers a wide range of products including groceries, electronics, fashion, home essentials, and lifestyle products.
- Implemented features to fetch products from the server and display them on the landing page.
- Designed and developed the login page, cart page, profile page, and logout page using HTML5, CSS, JavaScript, Node.js, and Express.
- Ensured the responsiveness of the website to provide a seamless experience across different devices.
- Solely worked on this project and completed it within a span of 5 days.

2. Real Talk Online Video Chat Platform | |

nodejs | javascript | redis | express.js |

- Developed an online video chat and messaging platform called Real Talk
- Utilized Node.js, Socket.IO, and WebRTC on the backend
- Implemented HTML, CSS, and JavaScript on the frontend
- Enabled users to engage in seamless video chat and messaging
- Provided an intuitive interface for real-time connections with others
- Team worked on this project and completed it within a span of 5 days.

3. Overstock Clone | |

html-css-js |

- Built an Overstock clone website with HTML, CSS, and JavaScript.
- Created landing page, login page, cart page, furniture page, and logout page.
- Implemented responsive design for optimal user experience on different devices.
- Developed checkout functionality for seamless purchasing process.
- Completed the project individually within a tight deadline of 5 days.
